Summary

Machine learning engineer focused on NLP and production ML systems.

Skills

Python, SQL, PyTorch, scikit-learn, Pandas, NumPy, NLP, Hugging Face Transformers, FastAPI, REST APIs, Docker, AWS, Git, MLflow

Experience

ML Engineer Intern - Nimbus Analytics (fictional) Jun 2023 - Present
- Fine-tuned BERT models in PyTorch for ticket classification (F1 0.91)
- Served models behind FastAPI REST endpoints in Docker on AWS

Data Science Intern - Orbit Labs (fictional) Jan 2022 - May 2023
- Built scikit-learn churn models with Pandas/NumPy feature pipelines
- Wrote SQL ETL jobs and tracked experiments with MLflow

Education

B.Tech Computer Science, Example Institute of Technology, 2024 - CGPA 8.9

Projects

- Resume NER with spaCy and PyTorch
- RAG chatbot over course notes
